Battery Outfitters

Technical Report

2 pages:

- Home page: includes the Header and the carousel(image slideshow).
- Contact us: includes WhatsApp, Instagram, and email.

Each page contains 2 folders (tsx &css)

5 components:

- Header: it contains the logo(on click the logo takes us to the Instagram page), the sidebar, and the close popup &openpopup functions.
- Battery popup: it contains all the battery types in addition to a close icon to close our popup (we can also click outside the popup to close it)
- Water popup: it contains all the distilled water types in addition to a close icon to close our popup (we can also click outside the popup to close it)
- About us popup: it contains all the about us text(split into 3 paragraphs) in addition to a close icon to close our popup (we can also click outside the popup to close it)
- Products card: this is the card that shows our products in a way that the description of each product is on the back face of the card. (to access the description it is enough to place the mouse on the product card then it flips)

Each component contains 2 folders (tsx &css)

In the App. tsx we call the homepage and contact us page

In addition to that, we worked on the CSS and media queries of each page and component.
